# **T** car. Endless possibilities.

Introducing the Golf Plus. Specially created for those who want to get a little bit more out of life. Not only does it offer masses of extra space, but more ways of using it, thanks to a whole wealth of clever features, designed to increase its functionality, comfort and safety. Which means, if you're looking for a car offering the ultimate in flexibility, alongside the legendary build quality, style and refinements of a Golf hatchback, the Golf Plus more than delivers. Never has one car offered so many possibilities.

# Design

From whichever angle you look at the Golf Plus, its stylish exterior cannot fail to impress. Strong bodylines, distinctive edges and a streamlined shape all demonstrate the high levels of quality, comfort and performance delivered by this iconic Volkswagen design. And while its appearance hints at the exceptional spaciousness within, it's the exterior aesthetics that really turn the eye. Whether you're looking at the front, side or the rear.

**Black housing around the halogen main beam with integrated indicator light and permanent daytime driving lights** provides a distinctive detail, integrating seamlessly with the radiator grille and giving the Golf Plus its characteristic front.

Image shown is Golf Plus SE with optional Winter pack.

The **tinted rear windows from the B pillar backwards** reduce sunlight by up to 65%, ensuring a pleasant temperature within the cabin, while protecting rear passengers and luggage from unwelcome glare and enhancing privacy. Optional on SE and SE BlueMotion Technology models.

The **distinctive roundel** proudly stands out on the **black gloss radiator grille** and helps define the face of the Golf Plus. Chrome trimmed radiator grille louvre inserts on SE and SE BlueMotion Technology models add a sporty touch and completes its stylish image.

The optional **silver anodised roof rails** enhance aesthetics as well as functionality, its special finish protecting against corrosion and making it especially durable. Optional on SE and SE BlueMotion Technology models.

The **body-coloured door mirrors with integrated indicator light** add a further distinctive design feature and can easily be seen in traffic, enhancing safety levels.

The **twin exhaust tailpipe** adds a visible sporty look to the rear of the Golf Plus.

Excluding 1.2 litre TSI 85 PS and 1.6 litre TDI 105 PS engines.

The **rear view of the Golf Plus** is particularly impressive. Distinctive 'Cherry red' tail lights flow smoothly into the dynamic contours, complementing the overall design, while the body-coloured rear bumper provides the perfect finishing touch to the exterior.

Image shown is Golf Plus SE.

# Numerous storage compartments. A million different combinations.

Where's the MP3 player? Next to the sunglasses? How about some spare change for parking? And what about the mobile phone? Whatever you need to store in the Golf Plus, up to 25 storage compartments provides you with an infinite number of possibilities, ensuring you keep all your essentials within easy reach. So, long journey or short, everything you need has its own home. From a water bottle, to lipstick, to CDs. All you have to do is remember where you put it.

Images shown feature standard and optional equipment and may not necessarily reflect UK upholstery availability.

# 10.8

metre turning circle ensures the Golf Plus has the agility to manoeuvre easily, whether parking in a tight space or driving in city traffic. And it's still so spacious inside.

# 186

hands – or 93 people – have helped assemble the Golf Plus.

# 154

countries are home to the Golf Plus, allowing its exceptional comfort and quality to gain a truly international status.

# 320

Nm of torque is produced between 1,750-2,500rpm on the 2.0 litre 140 PS TDI diesel engine.

# 644

kilograms\* is the maximum weight you can load into your Golf Plus – just in case you ever need to give a lift to a fully grown polar bear.

\* Figure based on 2.0 litre TDI DSG 140 PS engine. The maximum payload varies by engine, please see pages 38-39 for further information.

# 12

year body protection warranty against rust, gives you total peace of mind whatever the weather.

# 2

$FL = v \times A \times cW \times \frac{1}{2} PL$

is the formula used to calculate the aerodynamics of the Golf Plus. Rounded angles, a concave roofline and the flat angle of the windscreen all combine to keep wind resistance to a minimum, ensuring undisturbed airflow and enhancing performance.

# 7

gears on our 1.4 litre TSI DSG's transmission, ideal for maximising fuel economy and keeping CO<sub>2</sub> emissions down – even more efficient than the equivalent manual.

# 4,000

hours and about 4,500 kilometres of demanding testing – that's what every vehicle has to go through before the quality of its running gear is proven. From extreme climate conditions to salt water and bumpy roads, the Volkswagen test track shows no mercy.

# 20

millionth of a millimetre – that's the thickness (or should we say 'thinness') of the galvanised protective coating covering the Golf Plus' chassis, which goes through 20 stages before your choice of paint is applied.

# 90,000

nodal points are fully tested in a high-tech crash simulation, replicating the many different stresses and forces that occur in an actual crash situation – ensuring the highest levels of protection for you and your passengers.

Over **500**

**miles of freedom. On one tank of petrol.**

Yes, that's right – petrol. Thanks to the economical engines of the Golf Plus, you can cover more than 500 miles\* on a single tank of fuel, not only with a diesel engine, but now with a TSI petrol engine too. A combination of direct fuel injection and intelligent turbocharging technology delivers exceptional engine efficiency, ensuring TSI engines achieve extremely economic driving, while providing maximum drive enjoyment. And it's not just your wallet that will benefit. Due to the lower CO<sub>2</sub> emissions, so will the environment.

\* Up to 542 miles achieved on the Combined fuel cycle for the 1.4 litre TSI 122 PS DSG. Please see pages 38-39 for fuel consumption and CO<sub>2</sub> emission figures.

# The Golf Plus S and S BlueMotion Technology

As soon as you sit in the Golf Plus S, you'll experience the uncompromising attention to detail and the high quality of the materials used throughout. From the contemporary upholstery to the chrome-ringed air vent surrounds, the cabin exudes a feeling of well-being, and is even more luxurious, comfortable and spacious than you would have guessed from the exterior. From the black front radiator grille, rear roof spoiler and headlights with permanent daytime driving lights to the body-coloured door handles, front and rear bumpers and door mirrors with integrated indicators, you know you're looking at something special. But even the superior aesthetics of the distinctive exterior cannot prepare you for the luxury within. Opting for BlueMotion Technology on the Golf Plus S helps improve fuel consumption, achieving up to 65.7mpg over the Combined fuel cycle and producing a CO<sub>2</sub> emission figure of 114g/km. To read more on BlueMotion Technologies, please see pages 20-21.

15 inch steel wheels with full size wheel trims give a stylish look to the Golf Plus S. S BlueMotion Technology models feature lightweight steel wheels and low rolling resistance tyres as standard.

The RCD 310 DAB radio/MP3 compatible CD player features eight speakers and crystal clear digital audio broadcasts while its large screen clearly displays radio station choices or the track listings of a compatible device connected to the optional Multi Device Interface (MDI).

Manual air conditioning produces a pleasant, consistent temperature throughout your journey. It's extremely user-friendly and achieves your required cabin temperature quickly and efficiently. You can decide the air distribution and blower speed you want and set it manually.

Electric windows in the front and rear, a height and reach adjustable three-spoke steering wheel, and speed-sensitive, power-assisted steering are all fitted as standard. The comfort continues with a height adjustable driver's seat, reading lights, cooled glove compartment and an RCD 310 DAB radio/MP3 compatible CD player with eight speakers provides exceptional acoustics and also offers an AUX-in socket in the glovebox for connection to an external multimedia source such as an iPod or MP3 player, not to mention an array of storage compartments. Other features include manual air conditioning, electrically heated and adjustable door mirrors, remote folding keys for the central locking system and an alarm with interior protection, all designed to make driving as relaxing as possible. While details such as a multifunction computer including visual gear change recommendation for improved fuel consumption on 1.4 litre 122 PS manual and BlueMotion technology models, simply make life that little bit easier. There is even a convenient hill hold function fitted as standard which, for approximately two seconds, prevents your Golf Plus from rolling back when pulling away on a gradient or during a hill start. With adjustable white instrument lighting and the red illumination design on all dials providing an air of exclusivity throughout, the Golf Plus S and S BlueMotion Technology offer so much they have to be experienced to be fully appreciated.

Interior shown is Golf Plus S.

The badge at the rear symbolises its environmental credentials when 'BlueMotion Technology' is specified. For more information on BlueMotion Technologies, please see pages 20-21.

# The Golf Plus SE and SE BlueMotion Technology

Cruise control, multifunction computer, Bluetooth telephone connection, leather trimmed three-spoke steering wheel, Park Assist and parking sensors, front and rear, and a rain sensor are all fitted as standard, as are an automatic dimming interior rear-view mirror and coming/ leaving home lighting function. Between the two front seats there is a comfortable centre armrest containing a storage compartment, and a covered storage area can be found in the roof console. As well as storage pockets and folding tables on the back of the front seats, the rear also has air vents, cup holders and a 12V socket, while the luggage compartment features additional storage areas, luggage net and a further 12V socket. With other features including reading lights to the front and rear, illuminated vanity mirrors and an illuminated front footwell, you can easily see why the Golf Plus SE and SE BlueMotion Technology offers such a formidable package.

Phones must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

The Golf Plus SE and SE BlueMotion Technology epitomise the height of luxury, with everything designed for your total comfort and driving pleasure. The story starts as you approach the SE, with stylish 16 inch ‘Atlanta’ alloy wheels, and a sporty black radiator grille with chrome trimmed louvre inserts setting the scene. Inside, contemporary ‘Plaza’ upholstery is both comfortable and inviting, while the leather trimmed three-spoke steering wheel, gear knob and handbrake grip add an extra touch of luxury. The front comfort seats feature height and lumbar adjustment, while an RCD 310 DAB radio/MP3 compatible CD player with eight speakers provides exceptional crystal clear digital acoustics and also offers an AUX-in socket in the glovebox for connection to an external multimedia source such as an iPod or MP3 player. Bluetooth telephone connection for HFP (Hands Free Profile) enabled telephones allows you to make and receive phone calls via the RCD 310 DAB radio system and provides safe, hands-free communications. Opting for BlueMotion Technology on the Golf Plus SE helps improve fuel consumption, achieving up to 65.7mpg over the Combined fuel cycle and producing a CO<sub>2</sub> emission figure of 114g/km. To read more on BlueMotion Technologies, please see pages 20-21.

When passing a parking space at up to 19mph, the **Park Assist system** with ultrasonic front and rear parking sensors, compares the space available with the length of the vehicle. If the space is suitable, which can be as little as 1.1m longer than the Golf Plus, the Park Assist parallel parking assistant automatically controls the steering as soon as you engage reverse gear. All you have to do is operate the accelerator, clutch and brake, while keeping a good lookout. **Parking sensors** also assist in less challenging parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles: the closer you are to an obstacle the faster the sound frequency. In addition an **Optical parking display** extends the functions of the parking sensors by indicating your position on the RCD 310's DAB monochrome audio display during parking.

**16 inch ‘Atlanta’ alloy wheels** make a lasting impression with their contemporary elegance. SE BlueMotion Technology models feature low rolling resistance tyres as standard.

The **multifunction computer** with vehicle set-up function provides important information about your journey, including average speed, fuel consumption, exterior temperature and range of the fuel tank. Choose a BlueMotion Technology model and the multifunction computer includes a visual gear change recommendation for improved fuel consumption.

The **rain sensor** activates the windscreen wipers and adjusts their speed to the intensity of the rainfall. With similar ingenuity, the **automatic dimming interior rear-view mirror** darkens if lights from a following car are too bright.

# Safety

The Golf Plus is not only practical and versatile, but it also offers intelligence too, as demonstrated by its first class safety specification designed to help you manage such occurrences as bad weather, sharp bends and tight parking spaces. From curtain, front and side impact airbags to an ESC (Electronic Stability Control), these active and passive safety features help make every journey as safe as possible for all the occupants of the Golf Plus.

For even greater safety, you can add a **side airbag system** for the rear passengers. Optional on all models.

**Front head restraints** are height-adjustable and safety-optimised, so that in the event of a collision, the distance between the head and head restraint is reduced, thereby minimising the risk of whiplash injuries.

All five seats in the Golf Plus feature **three-point automatic seat belts**. In the front, the seat belts are height-adjustable and fitted with belt tensioners, which are designed to react within milliseconds to the airbags' trigger mechanisms.

The **ESC (Electronic Stability Control)** prevents the vehicle going out of control in critical driving situations by intervening instantaneously in the brake and engine management systems and controlling the speed of individual wheels. The vehicle thus achieves maximum directional stability and can be brought back under control.

In the event of poor visibility, the **front fog lights with static cornering function and chrome surround** provide better illumination of the road ahead and are thus highly recommended for maximum safety. Optional on all models.

The **front (ventilated) and rear disc brakes** deliver excellent thermal performance, even if there is a sharp rise in the temperature of the brakes.

Fastening seat belts before every journey is a vital safety precaution – the **seat belt warning buzzer and light** for the driver and front passenger ensures you don't forget this necessary measure, even on short journeys.

In the event of a change in air pressure, the **tyre pressure loss indicator symbol** appears, advising the driver to rectify the situation.

Think Blue.  
To help reduce the impact on our environment, not only  
have we come up with a solution, we've designed many.

BLUEMOTION  
— TECHNOLOGIES —

BlueMotion Technologies is our contribution to sustainable motoring. This means we offer optimum solutions for every demand, which makes driving more fuel efficient. Lower fuel consumption and lower emission diesel engines allied with BlueMotion Technologies are friendlier to the environment and your wallet, without having to give up everyday practicality and comfort.

The S BlueMotion Technology builds over the already well equipped Golf Plus S, with lightweight steel wheels and low rolling resistance tyres, supplemented by innovative technology to help keep fuel consumption and emissions impressively low, and unique 'BlueMotion Technology' badging to make it instantly recognisable. The Start/Stop function momentarily switches off the engine when the vehicle is stationary, in neutral and the clutch disengaged. This is notified to the driver on the multifunction computer, then disappears when driving is resumed. The multifunction computer includes a visual gear change recommendation for improved fuel consumption, while recuperation, a regenerative braking system helps utilise energy during braking and deceleration boosting the alternator voltage which in turn recharges the battery.

If you specify the SE BlueMotion Technology you have the same high specification of the SE, plus all the benefits of BlueMotion Technology.

Externally, Volkswagen's 'BlueMotion Technology' badging identifies the cleanest, most energy-efficient cars in our range. So when you see this logo you'll know we're talking about ways to reduce emissions and the cost of your motoring. Environmental technologies of today are meeting the driving challenges of tomorrow with one very important aim: to reduce the impact of our cars on the environment for future generations.

The **Start/Stop function** momentarily switches off the engine when the vehicle is stationary, in neutral and the clutch disengaged. This is notified to the driver with the Start/Stop symbol displayed on the multifunction computer.

The unique '**BlueMotion Technology**' badging sits neatly below the stylish rear light clusters displaying the Golf Plus' environmental credentials.

# Engines and gearboxes

Volkswagen’s ground-breaking engine and gearbox technology ensures exceptional performance. A choice of some of the most innovative engines available means you can look forward to driving a car delivering the ultimate sporty drive, yet still offering great fuel economy and environmental credentials.

The combination of direct fuel injection and intelligent turbocharging technology enables **petrol engines with TSI technology** to work particularly efficiently, offering such advantages as high performance, high torque and reduced fuel consumption. The TSI engine features a sophisticated turbocharger, resulting in excellent driveability and performance throughout the rev range. The 1.4 litre 122 PS TSI engine can accelerate the Golf Plus to 62mph in 10.2 seconds on its way to a top speed of 121mph, where the law permits.

The **1.6 litre TDI 105 PS** provides a perfect blend of performance and economy. This common rail engine utilises BlueMotion Technology and is capable of achieving an impressive 65.7mpg on the Combined cycle, while producing only 114g/km of CO<sub>2</sub>, offering good performance while saving fuel and reducing emissions.

The **2.0 litre TDI 140 PS** engine with common rail technology is a highly efficient and quiet combustion engine, combining exceptional economy with impressive pulling power and smooth running. This engine is capable of producing 320 Nm of torque at 1,750-2,500 rpm yet produces only 132g/km of CO<sub>2</sub>. Economy and performance figures are also impressive with 55.4mpg achieved on the Combined cycle and acceleration to 62mph in 9.8 seconds on its way to a top speed of 127mph where the law permits.

Please see pages 38-39 for CO<sub>2</sub> emissions and fuel consumption figures.

Volkswagen’s acclaimed dual clutch **Direct Shift Gearbox (DSG)** electronically controls gear selection, smoothly and imperceptibly into the pre-selected next gear. Such extremely short reaction times and direct response behaviour make dynamic acceleration twice as much fun. Depending on the engine specification, the six or seven speed gearbox is not only highly dynamic, but also fuel efficient.

Available as a **five speed or six speed manual**, these gearboxes transmit power with short, accurate shifts and very smooth handling, making it easy to drive at the right engine speed.

**Countless options.  
Personalise to your  
exact requirements.**

# Optional equipment

The latest technologies in audio playback, state-of-the-art navigations systems and connectivity provide you with the ultimate multimedia experience, enabling you to do more and enjoy more than ever before in the Golf Plus.

The RCD 510 touch-screen DAB radio/dash-mounted MP3 compatible six CD autochanger features a large 6½ inch colour display, with intuitive menu navigation and touch-screen operation. It also features an AUX-in socket for connection to an external multimedia source (e.g. iPod or MP3 player) and an SD card reader. Optional on all models.

In addition to your RCD 510 touch-screen DAB radio system or RNS 315 touch-screen navigation/DAB radio system, you can include an **optional rear-view camera** to help you park more easily and safely. The camera starts working as soon as you put your car into reverse gear and shows the area behind your car on your radio/navigation system display, offering you a clear reversing image. Optional on all models.

Please note: rear-view camera is fitted in lieu of DAB digital radio receiver when specified in conjunction with the RCD 510 touch-screen DAB radio system. Interior shown features optional RCD 510 radio system.

The RNS 315 touch-screen navigation/DAB radio system with MP3 compatible CD player features a 5 inch colour display with clearly arranged map navigation, as well as an SD card reader and practical AUX-in socket for connecting external audio devices, such as an iPod or MP3 player. Optional on all models.

RCD 510 DAB radio system, RNS 315 navigation/DAB radio system or RNS DVD 510 navigation/DAB radio system cannot be specified in conjunction with each other.

The RNS 510 touch-screen DVD navigation/DAB radio system with integrated voice control and rear-view camera will guide you to your destination using preloaded navigation data from the 30 GB hard drive and includes a 6½ inch colour display. This ingenious system responds to spoken voice commands which control the navigation, DVD, CD and radio functions. It is possible to give spoken navigation instructions such as the county, city, postcode, road names and house number. It also plays DVDs and music from the DVD drive, 30 GB hard drive or via an SD card. Parking is made easier with the rear-view camera by providing a clear view to the rear of your vehicle, transmitting a live image to your navigation system's display, enabling you to manoeuvre quickly and easily into the most difficult parking space. Optional on SE and SE BlueMotion Technology models.

DVD playback will not function whilst the navigation system is in use, or the vehicle is in motion.

The three-spoke leather trimmed steering wheel enhances the sporty feel of the Golf Plus and is echoed by the gear knob and handbrake grip also covered in high quality leather, enhancing the unique cockpit design. Optional on S and S BlueMotion Technology and standard on SE and SE BlueMotion Technology models.

The Multi Device Interface (MDI) with USB and iPod cables enables you to connect and charge a compatible device, while track selection is viewed and selected via the vehicle's radio system. Optional on all models.

The multifunction leather steering wheel is exceptionally user friendly, enabling you to control a whole host of functions, such as the radio, multifunction computer display, without taking your hands off the wheel. Together with the gear knob and handbrake grip, it is finished in high grade leather, and is pleasant to hold, as well as providing excellent grip and adding a touch of elegance to the interior. Optional on all models. On S and S BlueMotion Technology models, this option also includes a leather trimmed gear knob and handbrake grip.

Heated front seats form part of the **Winter pack**, ensuring your total comfort, especially during the winter months. The automatically heated front windscreen washer jets are always ready for use, even when it's frosty, while headlight washers increase safety in poor conditions. The handy low washer fluid warning light will alert you when the fluids need to be topped-up. Optional on SE and SE BlueMotion Technology models.

The **multifunction computer with vehicle set-up function** provides important information about your journey, including average speed and fuel consumption, exterior temperature and range left in the fuel tank. Optional on S and standard on all other models.

Cannot be specified in conjunction with multifunction leather trimmed steering wheel.

The **colour multifunction computer** displays the same useful information as the monochrome version, keeping you fully informed about your journey. It also shows whether doors are open and enables you to choose the language you require. Optional on all models.

Cannot be specified in conjunction with multifunction leather trimmed steering wheel.

In the event of poor visibility, the **front fog lights with static cornering function** provides better illumination of the road ahead and are thus highly recommended for maximum safety. Optional on all models.

Elegant **‘Vienna’ leather upholstery** provides the ultimate in exclusivity, with a choice of stylish Corn Silk Beige or sporty Titan Black. The package includes heated front sports seats, and for additional comfort, the driver’s seat also features electrically adjustable lumbar support. Long lasting, durable and easy to keep clean, leather is not only a classic, elegant and comfortable material, but also exudes a sense of luxury, enhancing the interior ambiance still further. Optional on SE and SE BlueMotion Technology models.

Some parts of leather interior will contain artificial leather.

**Climate control – 2Zone electronic air conditioning with automatic air recirculation system** features dual zone temperature control for the driver and front passenger, allowing each to select their individual preferred temperature. Optional on SE and SE BlueMotion Technology models.

Interior shown features optional RCD 510 DAB radio system.

The **electric slide/tilt glass sunroof** can easily be operated at the touch of a button, enabling you to let light and fresh air into the interior, regardless of the weather conditions. Tinted glass ensures adequate sun protection. Optional on SE models.

# Wheels

Whether you’re looking for a stylish 15 inch or a sporty lightweight 17 inch alloy wheel, Volkswagen offers a choice of wheel options for the Golf Plus, ensuring you find exactly what you want. And whichever you choose, there are three things of which you can be sure: its superior quality, design and driving characteristics.

**‘Seattle’ 7J x 17 alloy wheels** with 225/45 R17 tyres, including sports suspension lowered by approximately 15mm, provide a particularly sporty look to the exterior. Optional on SE models.

Full size **6J x 15 steel wheels** with 195/65 R15 tyres give the S model its unmistakable stylish appearance. Standard on S and S BlueMotion Technology models. Please note: S BlueMotion Technology models are fitted with lightweight steel wheels and 195/65 R15 low rolling resistance tyres.

**‘Wellington’ 6½J x 15 alloy wheels** with 195/65 R15 tyres offer a distinctive look, due to the ten spokes in two different understated designs. Optional on S and S BlueMotion Technology models. Please note: S BlueMotion Technology models are fitted with 195/65 R15 low rolling resistance tyres.

**‘Atlanta’ 6½J x 16 alloy wheels** with 205/55 R16 tyres add a touch of pure dynamism. Standard on SE and SE BlueMotion Technology models. Please note: SE BlueMotion Technology models are fitted with 205/55 R16 low rolling resistance tyres.

**‘Croft’ 6½J x 16 alloy wheels** with 205/55 R16 tyres add a distinctive sport appeal. Optional on SE and SE BlueMotion Technology models. Please note: SE BlueMotion Technology models are fitted with 205/55 R16 low rolling resistance tyres.

Choose your perfect combination.

# There's a Volkswagen for all of us.

Nippy city run around? Luxurious executive saloon? Open-top cruiser? Whatever it is you're looking for, we probably have it. From the iconic Beetle and Golf GTI to the up! and ultra-efficient BlueMotion Polo, there's a Volkswagen for everyone.

If you're thinking you might like to try a different Volkswagen, take a look at the selection below to see what else we have. There are 21 models in our range, so there's bound to be at least one that catches your eye.

## Efficient

Our **BlueMotion** models benefit from innovative energy-saving technology that helps you optimise fuel consumption and reduce harmful emissions. This includes low rolling resistance tyres and improved aerodynamics, accompanied with advanced engines and gearboxes. Choose from the BlueMotion Polo, Golf or Passat.

However, BlueMotion Technology can be found across our range where automatic Start/Stop technology and brake energy recuperation is standard on the majority of our engines, helping you to save more money by being more efficient.

## Spacious family cars

**Sharan:** The ultimate in convenience with sliding rear doors, and enough space for the whole family. And their luggage. And the dogs.

If it's space you're after, then you might also like to consider the Tiguan, Golf Plus, Golf Estate, Touran and Passat Estate.

## Style

**Beetle:** The original icon. And still the most unique way to make a fashion statement.

For more fun with the top down, why not consider Beetle Cabriolet, Golf Cabriolet or Eos.

## City run around

**up!:** The ideal city car. Efficient, fun and surprisingly spacious, with that trademark Volkswagen solidity.

If you're looking for something slightly more spacious, then why not consider the up!'s bigger sibling, the Polo. City run around efficiency with more versatility and even more space can be found on the iconic Golf – winner of 'World Car of the Year 2013'.

## Executive

**Volkswagen CC:** Perfectly turned out high-tech, executive luxury. A contemporary, stylish and innovative coupé.

All the luxury you need can also be found in the top of the range Phaeton, and executive comfort in the Passat Saloon and Jetta.

## 4x4

**Touareg:** The SUV just got smarter. True four by four capability off-road, and smooth, luxurious and powerful when on it. Features four wheel drive technology, '4MOTION', as standard for optimum road grip, stability and control.

Go anywhere, do anything in our four wheel drive alternatives: Tiguan and Passat Alltrack.

To see these models and configure your ideal Volkswagen, visit: [www.volkswagen.co.uk](http://www.volkswagen.co.uk)

## Sporty

**Scirocco:** As exciting to drive as it is to look at. Style, performance and power.

You will also find our sporty gene in the iconic Golf GTI and Golf GTD. Or for something more refined and elegant, there's the Eos too.

On illustrations, where arrows and figures are shown inside of the vehicle, the measurements are for interior dimensions.  
Where arrows and figures are shown outside of the vehicle, the measurements are for exterior dimensions.

- Technical specification notes**
- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68kg) and luggage (7kg) in line with EU directive 95/48.
- 03) With increasing altitude the engine performance diminishes. From 1,000m above sea level and for every 1,000m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) The use of 100% RME and FAME (bio diesel) is not possible. Forecourt diesel with up to 7% bio diesel content, adhering to standard BS EN 590, can be used in diesel engines. The use of ethanol in forecourt petrol meeting BS EN 228 is allowable.
- 05) The size of the fuel tank is approximate and therefore it may be possible to add a greater amount of fuel than the size of the tank specified, due to the space in the filler neck.
- 06) Fuel consumption and CO<sub>2</sub> figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. More information is available on the Volkswagen web site at [www.volkswagen.co.uk](http://www.volkswagen.co.uk) and at [www.vca.gov.org](http://www.vca.gov.org).
- 07) The weight of a vehicle will influence the level of CO<sub>2</sub> emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO<sub>2</sub>.

- Engines**
- Front transverse-installed engine
  - 1.2 litre/85 PS<sup>[01]</sup> (63 kW) petrol engine: EU5 emissions standard, four cylinder in-line direct injection engine, with two valves per cylinder. Fitted with a turbocharger module with electric boost pressure regulation. Available with a five speed manual transmission
  - 1.4 litre/122 PS<sup>[01]</sup> (90 kW) petrol engine: EU5 emissions standard, four cylinder in-line direct injection turbocharged engine, with four valves per cylinder. Fitted with a turbocharger. Available with a six speed manual or a seven speed automatic DSG transmission
  - 1.6 litre/105 PS<sup>[01]</sup> (77 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line common rail diesel engine, with four valves per cylinder. Fitted with a turbocharger and a DPF (diesel particulate filter). Available with a five speed manual or a seven speed automatic DSG transmission
  - 2.0 litre/140 PS<sup>[01]</sup> (103 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line common rail diesel engine, with four valves per cylinder. Fitted with a turbocharger and a DPF (diesel particulate filter). Available with a six speed manual or a six speed automatic DSG transmission

- Transmission**
- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch-mechanism. Five or six speed manual transmissions with double joint half axles. Six or Seven speed automatic DSG gearbox with a dry multi plate clutch and double joint half axles

- Running gear**
- Electronic Stability Control (ESC) including Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support
  - Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
  - Rear suspension with gas pressure shock absorbers and separate springs
  - Wheel control: front through chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius)
  - Wheel control: rear through four-link suspension with independent wheel suspension
  - Front and rear anti-roll bar

- Steering**
- Electro-mechanical steering rack
  - Collapsible, height and lengthways adjustable safety steering column

- Brakes**
- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
  - Diagonal twin-circuit brake system with ventilated front disc brakes and rear disc brakes
  - Asbestos-free brake pads

# Volkswagen service

## The Volkswagen Warranty

### Three-year Warranty

All Volkswagen passenger cars come with a three-year/60,000 miles warranty, which protects your car against the failure of most technical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty\*. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

\* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

### Three-year Paint Warranty

The paintwork of the Golf Plus is covered against manufacturing defects for a period of three years. Naturally, the Golf Plus must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

### 12-year Body Protection Warranty

The internal body sections and panels of the Golf Plus are covered against rusting through from the inside for 12 years. Naturally, the Golf Plus must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

### Approved Accessories

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

### Extended Warranty

If you order the Volkswagen Extended Warranty as an option when buying your new Golf Plus then you get the 100% Volkswagen Warranty and you can continue to enjoy comprehensive Volkswagen protection against many unforeseeable repair costs. Designed to your needs, you can purchase an extra one or two year's warranty up to a maximum of five years or 90,000 miles.

### Tax Free Sales

For full details, please contact your authorised Volkswagen retailer.

## Service Intervals

Volkswagen are pleased to offer you a choice on how your Golf Plus is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Fixed Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking

The service intervals for the Fixed Service are as follows:

- |                      |   |
|----------------------|---|
| • Oil change service | Every 10,000 miles/1 year (whichever is soonest)  |
| • Interval service   | Every 20,000 miles/2 years (whichever is soonest) |
| • Inspection service | Every 40,000 miles/3 years (whichever is soonest) |

The Flexible Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the Flexible Service the vehicle can cover anywhere between 10,000<sup>†</sup> and a maximum of 18,000<sup>†</sup> miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

<sup>†</sup> Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

### Volkswagen Roadside Assistance

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

## Volkswagen Insurance<sup>‡</sup>

We want you to start enjoying your new car from day one and thanks to Volkswagen Insurance complimentary seven day cover, you can. Call free on 0800 316 7892 (lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away.

<sup>‡</sup> Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230. Volkswagen Insurance is sold, underwritten and administered by Allianz Insurance plc registered in England number 84638. Registered office 57 Ladymead, Guildford, Surrey GU1 1DB. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are authorised and regulated by the Financial Services Authority. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

### Volkswagen Ensurance

Get three years' Volkswagen Ensurance cover for free.

Another great benefit of being a Volkswagen driver. If your Volkswagen was damaged in an accident, wouldn't you want it fixed by a Volkswagen trained technician using only genuine Volkswagen parts? Ensurance is Volkswagen's accident and repair cover which does exactly that. It works alongside your main comprehensive motor insurance policy no matter who you are insured with, to make sure you get the quality repair and service you would want. If you're involved in an accident or your car is stolen, just one call to us and we'll look after your claim from start to finish ensuring your Volkswagen is restored to the highest standard.

Activate your cover and benefit from:

- A guarantee that your Volkswagen will be repaired in a Volkswagen Insurance approved repairer, by Volkswagen trained technicians, using only genuine Volkswagen parts and paints.
- A dedicated Claims Manager available 24-hours a day to manage your claim, liaising with your insurer and the repairer, so you don't have to.
- Help to recover any uninsured losses using our Legal Expenses Cover.
- Online claims tracking so you can keep up to date with the status of any claim.

Volkswagen Ensurance is free to all Volkswagen customers for three years and it only takes a minute to get cover.

To find out more and to activate your cover, visit [volkswagen-ensurance.co.uk](http://volkswagen-ensurance.co.uk)

## Volkswagen Finance<sup>±</sup>

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.  
<sup>±</sup> Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

### CO<sub>2</sub> Emissions

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO<sub>2</sub> emissions produced.

The CO<sub>2</sub> and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

### Please Note

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: we would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofel regulations.
